AHF Around the Globe

AHF @ Snow Fest Argentina!

Every year at the end of July, Argentina's National Snow Festival is celebrated in Bariloche City, where over 10,000 people turn out for a week of special events, including concerts, various contests and career expos. This year, AIDS Healthcare Foundation (AHF) Argentina was front and center to spread the word on HIV and safer sex practices.

"We are working together, both the city and AHF, especially where our youth are concerned," said Mayor **Gustavo Genusso**. "Your presence here is very important, where students, tourists and all the people of Bariloche can get AHF's message to **Take care, Test yourself and Treat yourself.**"

Jey Mammon

Between those in attendance and television broadcasts, millions viewed the week's events. To reach the youth specifically, AHF and a partner organization brought in popular Argentine celebrity and AHF ambassador, **Jey Mammon** to speak at the main performance and give several interviews.

Vietnam Inmates to Receive Vital Services

Over 10,000 prison inmates in Vietnam will now have access to HIV care and services, after AIDS Healthcare Foundation launched new clinics in Thai Nguyen and Phu Tho provinces in partnership with local organizations on Aug. 3 and 4, respectively. The initiative will also serve the residents of local communities.

The two provincial prisons previously had limited resources for new HIV patients, such as providing essential lab tests for monitoring side effects caused by antiretroviral drugs. The clinics will help alleviate that, as well as provide overall HIV testing, care and treatment and ensuring proper follow-up.

"These projects will save more lives and increase the quality of life for people who are living with HIV/AIDS," said Deputy Director of Phu Tho Department of Health **Dr. Le Quang Tho**. "We highly appreciate the contribution of AHF Vietnam for fighting to end AIDS, both here and across the world."

KEEP the PROMISE on AIDS.org

We applaud the efforts to connect people living with HIV through awareness, and recognize there is still much work to be done. Through our [Keep the Promise](#) campaign, our goal is to fund the war on AIDS and get more than 20 million HIV+ people around the world on treatment by the year 2020.
